

# MAX COMFORT

The Best Choice For Hearing

## HASPRO ZEL\_3X

The ZEL 3X offers a noise reduction level with an SNR of 29 decibels.

Higher frequencies that fall within the range of 2,000 to 8,000 Hz – typical for an industrial environment – are reduced even further, by up to 40dB.

## HASPRO NOX\_5F

HASPRO NOX 5F made using modern, lightweight materials, they weigh in at just 340 grams.

The space left between the user's ear canal and the earmuffs insulation layer allows for better ventilation, reducing the buildup of moisture and heat.

## HASPRO LEXAR\_7X

HASPRO NOX 5F earmuffs have been specially designed for prolonged use.

Made using modern, lightweight materials, they weigh in at just 340 grams, making them suitable for use across many hours without causing discomfort.
