

HASPRO FOAM EARPLUGS

Provide a dependable and comfortable hearing protection solution. Crafted from ultra-soft foam, these earplugs offer outstanding noise reduction.

They are available in three convenient packaging options: a single pair of yellow foam plugs, perfect for a quick purchase at a corner shop, a box of 10 pairs, or a box of 50 pairs in a modern, eco-friendly paper tube, complete with a small container for on-the-go use.

HASPRO 1P is a single pair of earplugs. They are an excellent solution for those who occasionally need hearing protection.

These earplugs are easy to store, and their purchase represents a small investment in ensuring peace and comfort in unexpected noise-related situations.

FOAM VARIATION

Adjust to Your Needs

HASPRO TUBE50 - 50 PAIRS

COLOR:

HASPRO Tube50 contains 50 pairs in a modern, eco-friendly paper tube, along with a small container for on-the-go use.

The eye-catching packaging and trendy colors make earplugs a fashionable and functional choice for anyone seeking hearing protection.

HASPRO MULTI10 - 10 PAIRS

COLOR:

HASPRO Multi10 contains 10 pairs of earplugs made of super soft polyurethane foam, boasting a high attenuation value of 38 dB.

Specifically designed to adapt to each user's ear canal, they offer one of the highest noise reduction levels among products of their kind.
