

YOUNG CARE

Protection For The Dearest

HASPRO KIDS EARMUFFS

COLOR: ● ●

HASPRO Baby Earmuffs and HASPRO Kids Earmuffs are specially designed protective ear muffs that provide hearing protection and isolation from the surrounding noise.

Both models are perfect for use during air travel and in places characterized by high levels of noise, such as concerts, outdoor events, sports games, fireworks displays, and more.

Additionally, HASPRO Baby Earmuffs are specifically created for infants and young children to ensure a peaceful sleep, while HASPRO Kids Earmuffs can aid in concentration during learning or reading..

The headband used in HASPRO KIDS allows for size adjustment, allowing them to be tailored to the individual user's needs. This not only ensures a proper fit but also makes finding the right length incredibly easy.

SAFETY EARMUFFS FOR KIDS

HASPRO BABY EARMUFFS

COLOR: ● ● ●

The HASPRO Baby earmuffs feature soft and flexible foam-filled cushions that effectively reduce noise. These elements are made from hypoallergenic material.

Furthermore, the earmuffs are equipped with a flexible headband, allowing for a comfortable fit on your child's head. This ensures that they snugly fit around your baby's ears and sit comfortably on their head, without causing any pressure or discomfort.
