

HASPRO WAX - Wax Earplugs.

DESCRIPTION

HASPRO WAX consists of a blend of wax and cotton fibers. Wax earplugs are among the most comfortable available on the market because they are designed to seal the ear canal, not to penetrate it. Thanks to their moldable nature, they adapt perfectly to the shape and size of the ear, fitting almost everyone. Additionally, the wax earplugs soften with body temperature, which means that the longer you wear them, the better they conform to the shape of your ear. Each plug is packaged with a protective cotton wrap that should be removed before use. These earplugs offer a noise reduction level of 28 dB.

WATERPROOF EARPLUGS FOR SWIMMING

Wax earplugs are an excellent solution for individuals who, for health reasons, need to avoid water contact with their ear canal. Due to their ideal fit to the ear canal, they fill the external part of the ear, effectively blocking the entry of any water droplets. They are indispensable for use at the pool, beach, or wherever there is a risk of water entering the ear. With these earplugs, you can enjoy water activities with confidence, knowing that your ear remains dry and protected.

CUSTOMIZE EARPLUGS TO YOUR INDIVIDUAL EAR SHAPE

HASPRO WAX earplugs are the perfect solution for those who have previously tried various types of earplugs but couldn't achieve full comfort due to the unique shape of their ear. Our earplugs are flexible and moldable, similar to clay, allowing you to adjust them to almost any ear shape, whether it's an adult or a child's ear canal. This flexibility and molding capability make it easy to achieve the right level of comfort while wearing earplugs.

SLEEP, WORK, RELAX, HOBBIES

HASPRO WAX earplugs, known for their excellent fit and outstanding noise reduction, serve as versatile tools in various situations. They work exceptionally well as sleep earplugs, ensuring comfort even for side sleepers. They are practically imperceptible when worn under a helmet, providing optimal protection and comfort for motorcycle riders. These earplugs are also well-suited for workshop activities, protecting your ears from noise, and for relaxation while reading a book. Thanks to their versatility and perfect fit, HASPRO WAX earplugs excel in various aspects of life.

PURPOSE:

- Swimming
- Work
- Sleep
- Office
- Reading
- Travel

PACKAGE INCLUDES:

- The package contains 6 pairs (12 pieces) of wax inserts.
- Convenient packaging for storage.

Why is hearing protection so important?

High noise levels aren't just bad for our hearing, they can have a negative impact on our concentration, efficiency, and overall wellbeing. The longer we remain exposed to excessive noise, the faster we feel tired. This can cause fatigue, headaches, and dizziness, with further health complications also possible.
