

REMOVABLE BOLLARD

CITY

Ref. PCITYE

MEASURES:

Diameter: \varnothing 95 mm.
Visible height: 800 mm.
Total height: 970 mm.
Thickness: 2,5 mm.

Removable reinforced City model bollard, created at the request of the municipalities to solve the problem of breakage in the upper part of the bollards with stainless steel ring.

In this way we have created our **REMOVABLE REINFORCED CITY** model bollard made in one piece to solve this common problem that can damage pedestrians and the image of the city and the places where they are installed.

STANDARD FINISHES:

Gray oxiron..... Ref. PCITYE

FEATURES:

- Bollards built with galvanized iron tube.
- Laser-cut iron tube joining the upper and lower parts by 2 strips of the same tube, thus avoiding the frequent breakage of the upper part of the Hospitalet bollard.
- Iron finish painted in black oxiron, imitation wood and RAL chart color to choose from.

OPTIONAL:

- Logo customization:
 - Logo creation on bollards. Ref. CRELOG
 - Preparation of the logo on an engraving machine. Ref. CRELOGMAQ
 - Engrave logo on 1-sided bollards. Ref. LOGPI1C
 - Engrave logo on 2-sided bollards. Ref. LOGPI2C
- Reflecting tape.
- Additional removable base. Ref. BEXTRA95
- Otrer colors RAL.
